The Florida Tax Credit Scholarship Program

The Florida Tax Credit (FTC) Scholarship Program was established in 2001 to encourage private, voluntary contributions from corporate donors to non-profit scholarship funding organizations (SFOs) that award scholarships to children from low-income families. Step Up For Students was the only approved participating SFO for the 2013-14 school year. A corporation can receive a dollar-for-dollar tax credit up to 100% of its state income tax liability. The program also includes credits against the insurance premium tax for contributions to eligible non-profit SFOs, credits against severance taxes on oil and gas production, self-accrued sales tax liabilities of direct pay permit holders, and alcoholic beverage taxes on beer, wine, and spirits. The maximum amount the state may award was \$286 million in credits for the 2013-2014 fiscal year. This program expands educational opportunities and school choice for children of families that have limited financial resources.

Summary of the June 2014 FTC Quarterly Report

The June 2014 FTC Quarterly Report is also considered the annual report because it is based on the cumulative data submitted by the Scholarship Funding Organization for students who participated in the FTC Scholarship Program at any point during the 2013-2014 school year.

In 2013-2014, Step Up For Students awarded a total of approximately \$274 million in FTC scholarships to 59,822 students enrolled in 1,429 participating Florida private schools.

The 59,822 students in 2013-2014 is an increase of 8,747 students over the 2012-2013 student total of 51,075 as reported in the June 2013 FTC Quarterly Report. This represents an enrollment increase of 17%. The 1,429 private schools participating in 2013-2014 represent an increase of 6.8% from the 1,338 private schools that participated during the 2012-2013 school year.

Some characteristics of the FTC student data include:

- Slightly more female students (51%) participate in the FTC program than male students (49%).
- Lower grade levels tend to have larger student enrollments. Students enrolled in Kindergarten through Grade 3 make up approximately 53% of the scholarship recipients.
- The racial/ethnic breakdown reflects the diversity of students utilizing the FTC scholarship, which includes:

African-American students (32%)
Hispanic students (37%)
White students (24%)
Other students (7%)

 The top five districts (Dade, Orange, Broward, Duval, and Hillsborough) had 34,687 students (58% of total participants) receiving approximately \$160 million in FTC scholarships (58% of total funding).
